Dear Jesse,

I am perplexed at your silence. I know you are busy but so am I and others. What gives with our new Minutemen group?

You asked for a copy of Bob DePugh's letter that accused you and me of being CIA and together in a plot or two. I sent this to you and also enclosed several photocopies of credentials concerning my military past that I haven't disclosed to many people.

As I haven't heard from you, I await an answer before I send anymore dues in the new Minutemen and my mailing lists. I am sure you appreciate my viewpoint on this.

I do enclose the copy of the Mexican revolutionary paper of May 18, 71 issue of "La Otra Voz" printed for this area of Texas.

I also enclose a copy of a letter from a friend of mine who is the head of "Ordre Et Tradition" of Portugal and a copy of what O.E.T. stands for. As you can see from the underlined sentence, I can get you a membership in this organization, the largest and strongest anti-communist group in Portugal.

If you desire said membership then send me a curriculum Vitae (background resume) on yourself and two small photos and I will get you the said membership which could come in handy if you ever needed to go to Portugal or any other anti-communist country such as Spain, etc.

Let me hear from you soon with the required info and any news that you have on the new Minutemen and I will send you some dues money and my mailing lists.

I hope that your failure to answer my last letter wasn't due to your being in any trouble with the enemy or the police. TAKE CARE!

Your friend for God and Country,

Roy

Dear John,

Enclosed find the following: Personal message on tape, IPA Front material, Ordre et Tradition material, check of \$10.00 for my dues (which I make out to you to not have record of organization which paid to that might be used against me if bank records ~~EEEE~~ were ever seized).

I have arranged for six of my students who serve as instructors to run my school here. I will come down once a month to pay the rent, examine students for higher ratings & see that school is being run as it should be. I now have 44 students. It was once up to 57 but summer dropouts cut it down.

There are no dues in the two organizations that I mentioned above. You could make some fine contacts in Europe through them that could prove valuable in the future. Through my service with the ARF in WWII I made some fine and lasting anti-communist contacts and I do want to share them with you.

During WWII I became aware instantly of the danger of our pro-communist American policy and began to make contacts with military allies of importance who felt as I did about the communist menace.

In 1947 I became an activist against the Reds, first in the maritime labor movement as I had returned to the merchant marine and second in other labor movements. I guess this makes me an oldtimer in the anticommunist fight but I still have several good years left in me.

Some of my Patriot associates only think on a national scale and steer away from foreign anti-communist movements but I have decided that international cooperation between such groups is beneficial as the exchange of ideas and plans are of mutual benefit in our fight against the Intl. Banker/CFR/Zionist Cabal and its marxist fronts.

I do hope to hear from you soon. Continue to send mail to the following name and address until further notice.

Dear Fellow Patriot:

I have been informed that you have an admirable anti-communist group started. Please send me any data or information on your "church" and group that you deem informative.

I would be most happy to cooperate with you in any way that I can and would advise my followers to do so as well if your organization is an action group and not just a "thinkers group" that does nothing to fight the enemy but sit and read.

Are you connected with Bill Gale in any way? If so, fine. He is a great and courageous patriot.

Your church title is confusing, though. It reminds me of that fat ass and windbag, Billy Hargis. I am sure that you cannot be connected with him in any way. If by chance you are then don't bother to write.

If my information is correct, you are aware of the nonsense of the true masters of the U.S., the Zionist Yid/Intl. Banker/C.P.R. Cabal.

I hope to hear from you soon. I hope that we can be of mutual interest and help to each other. Do you come to Texas on lecture tours? What is your background?

I would be most happy to send you my background and report of activities in the patriotic movement.

Sincerely yours,

Roy Brown

SECOND CLASS CITIZENS

There are not many "second class citizens left in this country, thanks to civil rights legislation, civil service reforms and the strength of labor and industrial unions. But untenured college professors have not been rescued from this second class status as a result some good professors have been terminated from the SWT faculty without explanation or any apparent relevant reason.

These terminations were made without explanation of the cause or the right of the teachers involved to confront their accusers. Second class treatment of second class citizens. The escape route from second class citizenship for untenured teachers is available but motivation of those who can liberate them is a real problem. A sleeping giant in the form of 10,000 SWT students, who would care if good teachers were the shaft from capricious

administrators while incompetents who cannot teach anyone anything are retained because they keep their mouths shut and join the right civic clubs are retained, has yawned in the past few years but has never fully awakened.

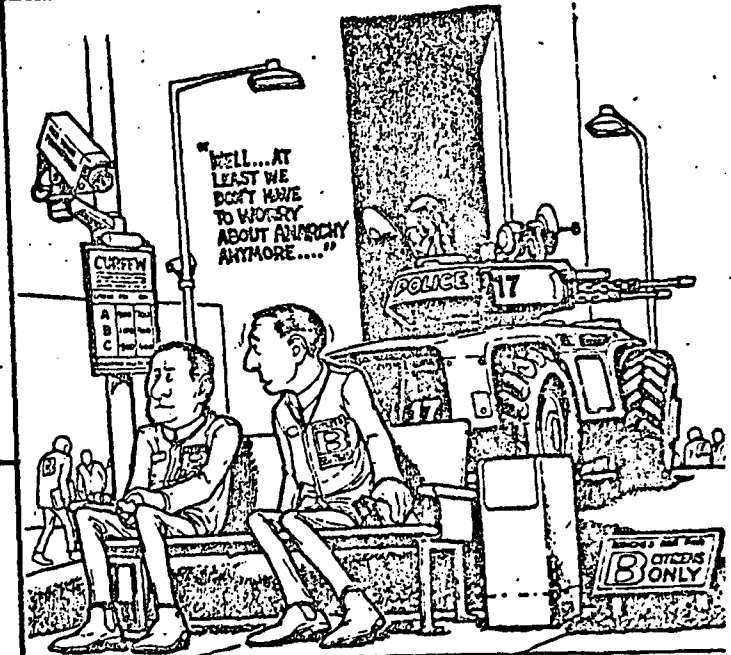

And a fire needs to be built under fellow members of the teaching clan who should realize what Pastor Niemoller belatedly discovered upon his arrest and imprisonment by the Nazi's. He wrote after his release following World War II, "When they came for the labor leaders I did not speak out because I was not a labor leader. When they came for the Jews I did not speak out because I was not a Jew. Then when they came for me it was too late, there was no one left to speak out."

Those who are left had better speak out while there is still time left to keep SWT from turning into a second rate university. First class teachers will leave the faculty if they continue to be treated as second

Creative Teaching

When a professor joins a college faculty---his origins, his ideas that he has brought with him are usually different from those he'll find in the college he has chosen to teach at. His is a necessary uniqueness that is needed in a faculty, in order to give it versatile, broadening scope. His difference is his prerogative. Possible occasions under which he might be dismissed from the faculty include: an increasing "fallow" period; total "neglecting the whole of the picture" (swaying his easily-influenced students to consistently think in only extreme directions); any overt abusive actions on campus. On or off-campus, in all respects, his private life should be his own.

When a college administration perpetually intervenes to impose its concept of how a professor should be, its authority becomes destructive. What the college president may consider as a professor's most distasteful trait might be the same trait that exhilarates, inspires his students, to fill his classroom to capacity.

are always essential to administration, if we are not to sacrifice our own prized individuality.

Pretty soon, at this rate, with these annual administrative purges of our faculty, the faculty will only have phantoms left of its prior genius. And those professors who are left will all go down together as identical non-smoking, non-drinking, non-cursing, NON-THINKING IDIOTS ---with the total destructions of the natural process called "creative teaching."

Dr & Mrs Roy J Brown
P. O. Box 1123
New Braunfels, Tx, 78130

Dear Dr & Mrs Brown,

Like yourself, I am greatly concerned over the trend in our country towards revolution, religious betrayal, and unilateral disarmament in the face of a growing Soviet threat. I am so concerned that I have written my first book in over a year, which is called - BILLY JAMES HARGIS SPEAKS OUT ON THE ISSUES!

In this book, which incidentally may be read in less than two hours by the average reader, I discuss some of the most crucial issues that confront our nation today.

I believe that we have accomplished a new dimension in publishing this book. The time has come when a book like this is needed for mass distribution because of the controversial issues discussed and the handy pocket size.

In the belief that "the truth shall make us free," we have initiated a really huge undertaking to produce hundreds of thousands of copies of this book for mass distribution. Frankly it is something that we cannot afford to do, but we feel that the NEED to get the vital message contained in this book out to the masses is so drastically URGENT that we must make the necessary sacrifices, Dr & Mrs Brown.

This world-wide ministry "for Christ and against communism," in fact, is financed SOLELY by those who VOLUNTARILY share their tithes and free will offerings with us. Because of the increasing pressures of the summer, there has never been a greater need than there is now. But, please do not let this simple and heart-to-heart EXPLANATION cause you to feel obligated, or that you should not request YOUR copy of this important book without a contribution. It is sent free.

This eye-opening new book, BILLY JAMES HARGIS SPEAKS OUT ON THE ISSUES!, will be ready for shipment by the time I receive your request. A self-addressed reply envelope is enclosed.

I believe that once you see the book you will join me in a national crusade to get millions of copies in circulation. Thank you, Dr & Mrs Brown, for the pleasure of working with you to preserve our Christian ideals.

Yours in Christ,

Billy James Hargis

Dear [REDACTED]

In 1938 a boy in his teens emigrated to the United States from Germany. Today, 33 years later, that same person is the second most powerful man in the world.

As chief advisor to the President, he formulates and directs American policy in foreign affairs and national security.

Who is this mysterious and shadowy figure? Who does he represent? What course has he set for the nation from which there may be no turning back? Mr. Gladden, these questions about Henry Alfred Kissinger need answering. I'm sure you'll agree.

I have made a careful inquiry into his background, power status and goals. I felt compelled to write you about him in all frankness and confidence.

In three years, through his influence on the President, Kissinger has been able to:

- 1) Reverse U.S. defense policy. Instead of deterring an enemy by a strategy of massive nuclear retaliation, he has adopted a policy of "negotiated peace."
- 2) Reverse U.S. policy on China. Now the U.S. recognizes the sovereignty of Peking over Taiwan.
- 3) Commit top U.S. leaders to a goal of phasing out national sovereignty and steering the United States in the direction of a WORLD STATE.

Actually, Kissinger's "revolutionary" authority now extends over the State and Defense Departments, with absolute control over all U.S. intelligence activities.

To sum it up: "Never in American history has a President depended so strongly for his global policy on any one man." And all of this power reposes in a man who had to be issued a 90 day security waiver when he was appointed.

Nelson Rockefeller had a lot to do with putting Kissinger in the driver's seat. The whole story is long and devious and cannot be dealt with here, but it's available to you.

I can say this: His career was guided and boosted along the way by powerful influences within the Council on Foreign Relations and certain tax-exempt foundations.

What's he up to? His books and writings show clearly he wants to destroy NATIONAL SOVEREIGNTY and establish a WORLD SUPER-STATE. Not all at once, you understand, but in "intermediate stages," preparations for which are already being managed.

I am terribly uneasy in my spirit. You and I must pray for America and get others to pray. Our hope lies in answered prayer in awakened citizens.

Here at Christian Crusade, I am doubling my efforts on television, radio and in the publications to reach as many people as I can with the truth.

Help me, please! Your contribution right now would go a long way in meeting obligations to some 100 TV stations, 150 radio stations and the distribution of some two million pieces of literature a month.

Two projects are important: (1) I intend to make America aware of who Mr. Kissinger is and what he stands for.

(2) I wrote you recently about the X-rated movies on television. I have hit a raw nerve on this issue, and must keep up the pressure.

I depend solely on you ... and other friends like you. This ministry is the largest single voice against communism in America today. IT MUST NOT BE SILENCED. Your gift of \$100, or \$75, or \$50, or \$25, or \$10, or \$5, or even \$2 or \$1 will strengthen our national voice. If I do not hear from you, it will be much weaker.

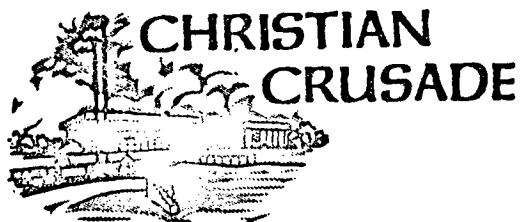

Believe me, it is ESSENTIAL that I hear from you by return mail.

Yours through Christ,

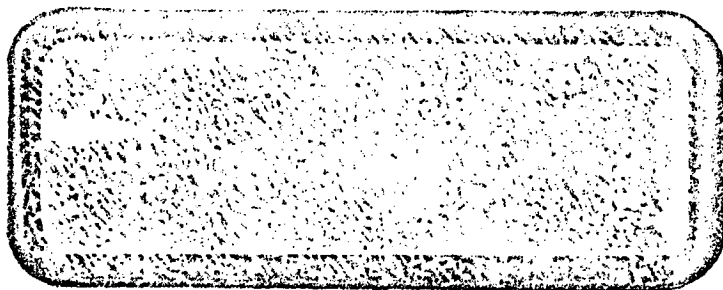

Billy James Hargis

What Do You Know About This Man

DO YOU KNOW . . .

- 1) That virtually every document relating to foreign policy, national security and intelligence activities goes through his hands before it reaches the President;
- 2) That he spends more time with the President than any other member of the White House staff . . . and is variously referred to as Nixon's Col. House or Nixon's Svengali or Nixon's Metternich;
- 3) That the men through whom he executes his policies are the very Liberals who have weakened America's power and prestige over the last 20 years;
- 4) That he was supported by Rockefeller grants through college and went from Harvard to the Council on Foreign Relations, serving for years as researcher and policy maker;
- 5) That at Harvard he was the protege of Wm. Y. Elliott, a leftist professor whose name cropped up in the hearings on the old Institute for Pacific Relations — the organization used by the Reds to deliver China to communism;
- 6) That he is a long-time advocate of disarmament and the strategist for no win wars and for McNamara's reorganization of the Pentagon;
- 7) That he was the man behind the scenes in getting the National Council of Churches to call for the U.S. to drop its hard line against Cuba;
- 8) That his three books and other writings became source material for American policy makers in three administrations;
- 9) That through his influence on the President he has set a course for the nation which reverses U.S. policy in national defense and on Free China;
- 10) That his goal is to phase out national sovereignty and steer the United States in the direction of a world state.

If you are aware of not more than three or four of these points, you ought to know more about Henry Kissinger. And you can, just for the asking, in the single, most important book ever mailed from Christian Crusade entitled . . .
